

Московский Авиационный Институт  
(Национальный Исследовательский Университет)

Факультет информационных технологий и прикладной математики  
Кафедра вычислительной математики и программирования

**Лабораторная работа**  
**по курсу «Операционные системы»**  
**III Семестр**

**Задание 1**  
**Вариант 10**

Студент:	Алексеева М.А
Группа:	М80-308Б-18
Преподаватель:	Миронов Е.С
Оценка:	
Дата:	

# 1. Описание задания

При выполнении последующих лабораторных работ необходимо продемонстрировать ключевые системные вызовы, которые в них используются и то, что их использование соответствует варианту ЛР.

Я выделяю жирным шрифтом соответствующие строки в каждом трейсе.

## 2. Strace

### 2.1. lab 2

## **Вывод**

Выполняя лабораторные работы по данному курсу, я познакомилась с утилитой strace, научилась читать её вывод, понимая более-менее что там происходит, а также применять фильтры к выводу команды strace.
